

BANDO POWER ACE

Construction

- 1: Rubber impregnated canvas
- 2: Polyester tensile members
- 3: Chloroprene insulation rubber
- 4: Special lateral reinforcing cord
- 5: Chloroprene compression rubber

Features

- High horsepower rating
Requires about 1/3 of the space needed by traditional Multiple V Belt drive.
- Long life
- High heat and oil resistance
- Length stability. A matched set of Bando Power Ace for multiple belt drives retains superior uniformity under tension. A Bando matched set remains perfectly matched even after long periods of storage.
- Power Ace raised crookedness nature by making texture of canvas into 120 degrees instead of 90 degrees of conventional V-belt.

Power Ace
Outer Jacket.

Conventional V-belt
Outer Jacket.

Dimensions

Type	Top width a	Thickness b	Angle θ
3V	9.5mm (0.38")	8.0mm (0.32")	40°
5V	16.0mm (0.62")	13.5mm (0.54")	40°
8V	25.5mm (1.0")	23.0mm (0.88")	40°

Size mark

Pulley

Use RMA Engineering Standards recommended pulley groove dimensions, IP-22 (Specifications for Drives Using Narrow Multiple V-BELTS).

BANDO POWER ACE

The superior power transmission capacity of the Bando narrow Power Ace® V-belts allows for drive designs with smaller components reducing machine space and cost. The higher efficiency of the Power Ace® V-belts will also result in decreased operating costs.

Just three types of Bando Power Ace ideally cover all five sections of multiple V-belts. For multiple or single drives, the 3V replaces A, and B sections; the 5V replaces C and D sections; and the 8V replaces D and E sections.

Standard Sizes

※These sizes are in conformity to RMA.

Belt number	Effective outside length		Belt number	Effective outside length		Belt number	Effective outside length	
	mm	inch		mm	inch		mm	inch
